

# Developer Candidate Exercise

## Front End Developer

### Instructions

1. Use the included HTML and SCSS to create a page that matches the included designs. Our hope is this will take roughly an hour, 2 max.
2. Upload the completed exercise to github/google drive or any filesharing location and send a link.

## MassMutual

### Coding Exercise

Here is a simple coding exercise for front end development at MassMutual. What we are hoping is that you'll take roughly an hour to style this page to match the image. Please note that some styles on this page will differ slightly from our live site. Feel free to use any similar sans serif and serif in this exercise.

778 x 368

CATEGORY

#### Card Title

The title above should use the same style as the h2 at the top of this page but not be an H2 itself.

A BUTTON!

778 x 368

CATEGORY

#### Card Title

The title above should use the same style as the h2 at the top of this page but not be an H2 itself.

A Link!

778 x 368

CATEGORY

#### Card Title

The title above should use the same style as the h2 at the top of this page but not be an H2 itself.

This card has extra content in it and so it's content is taller than other cards.
